Cooperative

phpBB3 Style
by: MattM

Install

1. Upload cooperative_v100.zip to your phpBB3 **Styles** folder
2. Extract cooperative_v100.zip
3. Log in to your board, in the Administration Control Panel (ACP) click on the **Styles** tab
4. At the bottom of the page you should see **Uninstalled styles**
5. Click the Install link
6. In the Options box select **Make default style**
7. Submit

Customization

To use the alternate style colors

1. Open the **stylesheet.css** file /styles/cooperative/theme

2. At the end of the file you will find @import url("**style_blue.css**")

```
/*  phpBB 3.0 Style Sheet
    ----------------------------------------------------------------
    Style name:         Cooperative
    Based on style: proSilver (this is the default phpBB 3 style)
    Original author:    subBlue ( http://www.subBlue.com/ )
    Modified by:            MattM ( http://themeforest.net/user/vaft )

    Copyright 2006 phpBB Group ( http://www.phpbb.com/ )

    To customise the look see the included Read Me file.
    ----------------------------------------------------------------
*/

/* Regular Stylesheets */
@import url("common.css");
@import url("custom.css");
@import url("links.css");
@import url("content.css");
@import url("buttons.css");
@import url("cp.css");
@import url("forms.css");
@import url("tweaks.css");
@import url("colours.css");
/* Custom Stylesheets*/
@import url("grid.css");
@import url("style_blue.css");
```

3. Change **style_blue.css** to one of the options listed below.
   - To use the Blue style: style_blue.css
   - To use the Green style: style_green.css
   - To use the Lime style: style_lime.css
   - To use the Orange style: style_orange.css
   - To use the Purple style: style_purple.css
   - To use the Red style: style_red.css
   - To use the Yellow style: style_yellow.css

To use the alternate imagesets

1. Extract **alternate_imagesets.zip** to the **/styles/** folder
2. In the ACP under the Styles tab select Imagesets. You should see the imagesets under **Uninstalled imagesets**

3. Click on install for the one you want to use
4. Go back to the Styles page, under Options find Cooperative and click **Details**

5. Under imageset there will be a dropdown box, select the imageset you installed

6. Submit

To use the full-width container.

Open *overall_header.html*

Find:

```
<div id="page-body" class="grid_9">
<div id="main-content"><div id="main-content-top"><div id="main-content-bot">
```

Replace with:

```
<div id="page-body" class="grid_12">
<div id="main-content2"><div id="main-content-top2"><div id="main-content-bot2">
```

Open *overall_footer.html*

Find and Remove:

```
<!-- INCLUDE sidebar.html -->
```
